

MAGNET LAMP

Design by
Michael Raasch

Description

Magnet Lamp is a modern interpretation of the classic shaded lamp. Michael Raasch has designed an elegant family of lights which respond in perfectly modular fashion to every one of the user's lighting requirements. **IMPORTANT:** shade should only be moved when the light is switched off and the bulb has cooled.

- Table lamp : Structure in textured satin white or black lacquered steel. Cylindrical white or black cotton shade with white PMMA diffuser which together create a pleasant lighting ambiance. The shade is magnetized and it is therefore possible for it to be positioned freely at the desired height, whilst its handle enables it to be angled as desired. Grey or black textile cable with manual dimmer. Supplied with 1 x 57W E27 standard (classic A) eco halogen bulb (equivalent to 75 W).

- reading lamp : Structure in textured satin white lacquered steel. Cylindrical white cotton shade with white PMMA diffuser which together create a pleasant lighting ambiance. The shade is magnetized and it is therefore possible for it to be positioned freely at the desired height, whilst its handle enables it to be angled as desired. Grey or black textile cable with manual dimmer. Supplied with 1 x 77W E27 standard eco halogen bulb (equivalent to 100 W).
